

Region 2000 Radio Communications Board

Amherst County  
Bedford County  
City of Bedford  
City of Lynchburg

The Region 2000 Radio Communications Board will take proposals for consignment services to sell Harris EDACS public safety radio equipment.

During 2015-2016 eleven radio communications sites of Harris EDACS public safety communications equipment will be replaced with new equipment. Older models of mobiles and portable radios will also be available for consignment.

Proposals should state:

- Whether the status of the inventory will be trackable via the web
- The frequency and detail of reports that we will receive regarding the materials.
- A description of the recycling program
- The cost to us for your service or any payments that the Radio Board will receive for the used equipment
- Two references, with contact information
- The successful vendor will need a storage location within the greater Lynchburg area so that when Harris removes the equipment it can be delivered to the vendor's location.

Questions may be addressed to and proposals should be sent to:

Susan Cook  
Region 2000 Radio Communications Board  
828 Main Street, 12<sup>th</sup> Floor  
Lynchburg, VA 24504  
[scook@region2000.org](mailto:scook@region2000.org)

Proposals are due by: 3 P.M., Thursday, March 26, 2015. Proposals may be e-mailed or sent by U.S. Mail.
